

## **Archivist's Report, 2015**

Documents that have accumulated over the past five years are currently being prepared for depositing at the Macmillan Brown Library.

Apart from some routine Steering Committee material and the regular newsletters from two local groups I've received very little in the last year.

As far as I'm aware, the Sea of Faith archive has not been consulted during that time.

While there's no need to preserve material of peripheral interest, the intention of the archive is to provide a lasting record of the organization. To that end I need a full account of conferences, Steering Committee and local group activities, the Newsletter, and any other items of special interest. The documents can be in either electronic or paper form.

I urge everyone to be "archive aware" in order to ensure that I receive all relevant documents. Please don't hesitate to contact me with any concerns or queries:
